Commissioner for Patents
P.O. BOX 1450

Dear Examiner:

In response to the Office Action of September 9, 2004, Applicants reiterate their wish to elect the species II of figure 2. The claims corresponding to the elected species are claims 1-12. Claims 1-6 are generic and could apply to either of the species, and claims 7-12 correspond specifically to the use of passive sensors which is the elected species. Claims 13 onward are non-elected claims directed to a method for which it is believed the restriction requirement is improper and which is respectfully traversed.

Respectfully submitted,
